Guidelines on infection control measures
(with effect from September 1, 2020 until further notice)

All events shall be subject to the following arrangements:

(a) The number of participants at an event held on campus should not exceed 50% of the maximum seating capacity of the venue.

(b) The organiser should check the body temperature of all participants before they enter the venue. Anyone with a fever should be asked to leave the venue and consult a doctor immediately (https://covid19.hku.hk/control/faqs-infection-control/).

(c) All participants should wear a face mask at the event.

(d) The organiser should make alcohol-based handrub available and easily accessible at the venue.

(e) Seating arrangement should be done in a way to facilitate appropriate physical distancing of participants such as an alternate seating or a spacing of 1.5 metres between each participant.

(f) The organiser should ensure that the air conditioning and ventilation system at the venue is in operation.

(g) Food and drinks should not be allowed at the event.

(h) The organiser should keep a record of the seating arrangement (if applicable) and contact information of all participants to facilitate contact tracing, if and when necessary.
